

MECHANICAL

At UPS Industrial Services, we provide full-scope mechanical services to support complex manufacturing and technology environments.

From equipment setting and structural installation to full mechanical system execution, our experienced craftsmen deliver projects safely, on schedule, and to specification.

With deep experience supporting manufacturing and technology facilities, our teams coordinate seamlessly with electrical, piping, and fabrication crews. Using precision alignment tools and industry-compliant practices, we ensure optimal performance and long-term reliability for mission-critical operations.

- ★ **Equipment Installation & Setting**
- ★ **Structural & Steel Erection**
- ★ **Rotating Equipment & Alignment**
- ★ **Utility & Process System Installation**
- ★ **HVAC & Mechanical Systems**
- ★ **Preventative Maintenance Support**
- ★ **Capital Project Execution**
- ★ **Integrated Mechanical Solutions**
- ★ **Optimized Operational Performance**
- ★ **Engineered Rigging & Heavy Lift Execution**
- ★ **Laydown Management & Material Coordination**
- ★ **Boiler Installation & Construction Services**
