

FERTILIZER

At UPS Industrial Services, we go beyond maintenance to deliver full-scope support across every phase of your project.

PRODUCTION FACILITIES

- ★ Ammonia Production
- ★ Utility Support
- ★ Bulk Storage
- ★ Urea Processing
- ★ Loading & Transfer Operations

Fertilizer producers trust UPS Industrial Services to work safely and effectively across ammonia systems, bulk handling, and corrosive process environments. Our teams are experienced in PSM-regulated ammonia environments, high-throughput bulk operations, and the corrosive process conditions that drive maintenance in fertilizer production. We deliver the field execution and specialty support your facility needs to stay compliant, productive, and on schedule.

BULK HANDLING

Execution support across active material handling and storage environments, including dust exposure, material buildup, and high-throughput transfer conditions.

- ★ **Conveyor Systems**
 - Material transfer and bulk product movement
 - Conveyor structure repair and modification
 - Dust and particulate exposure management awareness
- ★ **Storage Tanks (API 653)**
 - Shell and floor inspection and repair
 - Containment support and annular plate work
- **Rail and Truck Loading**
 - Transfer operations and facility modifications
 - Loading arm and equipment support

AMMONIA SYSTEM & SAFETY SUPPORT

Hazardous service and PSM compliance support across ammonia processing environments.

- ★ **Ammonia Piping & Equipment Maintenance**
 - Corrosive service piping inspection and repair
 - Material degradation monitoring and remediation
- ★ **Pressure Relief Valve & Safety System Support**
 - PRV inspection coordination and replacement
 - Relief system integrity activities
- ★ **Containment & Environmental Control**
 - Spill containment and ammonia release risk awareness
 - Environmental exposure and secondary containment support

★ PSM-Covered Equipment Programs

- Mechanical integrity inspection support
- Process hazard analysis (PHA) awareness

TURNAROUNDS, MAINTENANCE & CORROSION CONTROL

Coordinated support for ongoing production activities, schedule-driven maintenance, and corrosion management across active processing environments.

- ★ **Routine Maintenance**
- ★ **Turnaround & Shutdown Activities**
- ★ **Mechanical & Piping Support**
- ★ **Structural Repair and Modifications**
- ★ **Protective Coating Applications**
- ★ **Thermal Insulation**
- ★ **Process & Utility Piping**

**PROFESSIONAL CRAFT.
EXCEPTIONAL RESULTS.**
